Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The applicant discussed the reference of Falciglia and the interpretation of the reference to the current claims. The applicant's main arguments were regarding the display on the reference not being mechanical displays. The examiner noted the arguments, however the claimed language did not support the arguments. The examiner suggested potential claim language that would narrow the scope of the claims and could overcome the cited reference.
